EDUCATION

Indian Institute of Information Technology, Vadodara — May 2025
B.Tech. in Information Technology — *Current GPA: 7.71/10*

Shriji Baba Saraswati Vidya Mandir, Mathura — May 2020
High School — *93.4 %*

SKILLS

Languages: Java, JavaScript, HTML/CSS, Python, C/C++
Frameworks: SpringBoot, React
Tools: Git/GitHub, Postman, Docker
Databases: MongoDB, PostgreSQL, MySQL

PROJECTS

E-Commerce Platform | | *React, Java, SpringBoot, Tailwind, PostgreSQL* — Mar. 2024 - Present
- Developing a React frontend with Java backend to create a smooth shopping experience.
- Utilizing Material-UI and Tailwind CSS for visually appealing designs.
- Ensuring secure transactions and efficient data management with Spring Boot and PostgreSQL.

Hostel Management Website | | *JavaScript, Express, MySQL, Figma* — Jan. 2023 - April. 2023
- Existing hostel management systems lack efficiency and organization, causing inconvenience for students and staff.
- Developed a robust website to manage hostel issues, including electricity, water supply, and furniture maintenance.
- Centralized platform for reporting and resolving concerns, revolutionizing hostel management with improved efficiency and user experience.

Quiz App Backend | | *Java, SpringBoot, PostgreSQL, Postman* — Sept. 2023 - Dec. 2023
- Usually quiz applications often lack robustness and user-friendly features, leading to subpar user experiences.
- Created a backend-only quiz application with APIs to handle quiz creation, management, scoring, and result generation.
- Improved efficiency and scalability by focusing on backend logic, ensuring secure user authentication and smooth quiz operations.

EXPERIENCE

Subject Matter Expert | *Tutor* — Oct. 2023 - Jan. 2024
- Served as Subject Matter Expert (SME) for Maths, Chemistry, and Physics with Shri Chaitanya Foundation in collaboration with LearnAsYouGo.
- Mentored over 100 students, providing guidance and support in their academic subjects.

CERTIFICATIONS

Tata Cybersecurity Security Analyst Job Simulation on Forage — Feb. 2024
- Completed Tata Group's Cybersecurity Analyst on Forage, specializing in IAM for Tata Consultancy Services. Acquired expertise in IAM principles, cybersecurity best practices, and effective communication of technical concepts.
